**The SergeantClip is an essential tool for all
data centre, infrastructure and networking arenas.**

Testimonials

"The Sergeant Clips performed wonderfully with my wiring closet swap outs I did back in December. It saved us a tremendous amount of time...I am very pleased with the product and will continue to use it going forward as well as recommend it to others. Thanks for making this product!

Matthew, BEDROC, Tennessee. United States.
Matthew also wrote about his experiences on his own blog at:
http://www.insearchoftech.com/2014/02/10/easier-cabling-migrations/

"I used the Sergeant Clips to replace some heavily populated Cisco 2960's with 3750's during a recent upgrade. Because I didn't have to identify and document each individual cable, I was able to replace 3 switches in a Data Centre in under an hour. This would normally have taken me at least an hour per switch. I will be using my clips again and will definitely recommend them to companies I contract for in the future.

Edward, Independent Network Consultant/Engineer, UK.
Has done contract work for multiple FTSE 100 Companies.
